## IBM Cloud Dashboard:

The screenshot shows the IBM Cloud Dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links to Catalog, Manage, and the user's account (Abisha R's Account). The main content area is titled "Dashboard" and features a "For you" section with five cards: "Build", "Build a web app with Watson Speech to Text", "Get started with Watson Discovery", "Access to a service within resource groups", and "Unlock the entire catalog". Each card includes a brief description and a "Getting started" button with a time estimate. Below this, there are four more sections: "News", "Recent support cases", "Planned maintenance", and "IBM Cloud status", each with a "View all" link. A user profile dropdown menu is visible on the right, showing options like Profile, Log in to CLI and API, Privacy, Change theme, and Log out.

## IBM Cloud Catalog:

The screenshot displays the IBM Cloud Catalog interface. The top navigation bar is consistent with the dashboard. The main content area is titled "Catalog" and features a search bar. Below the search bar, there's a "Category" section with a list of categories and their product counts: Recommended products (6), Compute (29), Containers (9), Networking (30), Storage (20), AI / Machine Learning (17), Analytics (10), Blockchain (1), Databases (28), and Developer tools (25). The main product list shows three items: "Analytics Engine" by IBM, "AnonTech ViziVault Platform" by Anon Technology, Inc., and "API Connect" by IBM. Each item card includes a brief description and a list of features or capabilities. The interface also includes a "Viewing 205 products" indicator and a "Sell on IBM Cloud" link.

## • IBM Watson IoT Platform

### IoT:

The screenshot shows the IBM Cloud console interface for the 'Internet of Things Platform-lx' resource. The page is titled 'Internet of Things Platform-lx' and includes a status indicator 'Active' and an 'Add tags' button. A sidebar on the left contains navigation links for 'Manage', 'Plan', and 'Connections'. The main content area features a large blue icon representing the IoT platform, followed by the heading 'Let's get started with IBM Watson IoT Platform' and a subheading 'Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.' Below this, there are 'Launch' and 'Docs' buttons. Further down, a section titled 'Ready for the next level?' introduces the 'IBM Watson IoT Platform Journey' with three stages: 'Lite', 'Non-Production', and 'Production'. Each stage has a brief description and a list of features.

**Internet of Things Platform-lx** Active Add tags

**Manage**  
Plan  
Connections

**Let's get started with IBM Watson IoT Platform**  
Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.

[Launch](#) [Docs](#)

**Ready for the next level?**  
**IBM Watson IoT Platform Journey**

- Lite**  
The Lite service plan provides a lightweight development environment to get you started with the connectivity capabilities of Watson IoT Platform.  
• Free
- Non-Production**  
The Non-Production service plan is a full-featured, fully-integrated offering that enables you to explore Watson IoT Platform to see how the service can fit into your IoT environment.  
• Starts at \$500 per month
- Production**  
The Production service is a fully managed SaaS offering that enables you to manage and analyze enterprise IoT data.  
• Includes IBM Service & Support

### IBM Watson IoT Platform:

The screenshot shows the IBM Watson IoT Platform landing page. The page has a dark blue background with white text and icons. The main heading is 'Assets' in a large, light blue font. Below the heading, there are two main sections: 'Collect data from' and 'and make value from it'. The 'Collect data from' section includes icons for a cloud, a factory, and an airplane. The 'and make value from it' section includes icons for a lightbulb, a gear, and a smartphone. At the bottom, there is a 'Learn More' button with a downward arrow. The page also includes a 'Sign in' button in the top right corner and a 'Cookie Preferences' button in the bottom right corner.

A screenshot of the IBM login page. The browser's address bar shows the URL: https://login.ibm.com/authsvc/mtfm/sps/authsvc?PolicyId=urn:ibm:security:authentication:asf-basicdapuser&Target=https%3A%2F%2Flogin.ibm.com%2Foidc%2Fendpoint%2Fdefault... The IBM logo is at the top left. The main heading is "Log in to IBM". Below it, it says "Logging in as 960219104004@smartinternz.com Not you?". There is a password field with a blue border and a toggle icon. Above the field is the label "Password" and a link "Forgot password?". Below the field is a checkbox labeled "Remember me" with a help icon. A blue "Log in" button with a right arrow is below the checkbox. At the bottom, there is a link "Don't have an account? Create an IBMid". At the very bottom, there is a link "Need help? Contact the IBMid help desk". The footer contains links for "Contact", "Privacy", "Terms of use", "Accessibility", and "Cookie preferences", followed by "Powered by IBM Security Verify".

**Configuring your app**

To connect services and DevOps toolchains to your app:

1. Use the **Services** card to connect a service to your app. Select an existing service instance, or create a new one. [Learn more.](#)
2. If you want to view the code before your app is deployed, click **Download code** to obtain the .zip file.
3. Click **Deploy your app** in the **Deployment Automation** card to select the deployment target and configure the Continuous Delivery service. The deployment begins automatically.
4. After the deployment begins, you can view the status of the deployment, modify your app, view your repo, or view the app's URL.
5. If you make any changes to your app, be
